

## The Magicians Who Played

**Doug Henning** and his manager attended a metal bending party that I led at my home in Springfield, VA. Doug was world renown and on par with David Copperfield at that time. It was his manager who had the first spontaneous bend that evening. Doug was blown away by the spontaneous bending accomplished by an 11 year old girl who had never attended such an event previously. Also present were Bert Stubblebine and Ted Rockwell. Doug was associated with Maharishi Melesh Yogi of the Transcendental Meditation movement and had observed several phenomenal events in India.

**Jeff McBride** is the magician's magician! He trains professional magicians and performs all over the world. A true seeker, he is well aware of the realities we study. Jeff's searches took him away from the stages of Las Vegas and on to remote areas of the world.

**Alain Nu**, an accomplished professional magician who also tracks the unusual and is open to possibilities. He fully understands illusions and can adroitly manipulate silverware. His specialty is performing mental magic.
